

# CAT PROTECTION SOCIETY Adoption Questionnaire

In order to proceed with an adoption today we ask that you take some time to read the information below and complete our adoption questionnaire. The information that you give will allow us to best match you with one of our cats or kittens.

Making the decision to share your life with a cat or kitten is a very serious commitment. The cat or kitten you choose to take home today may be a part of your life for the next 20 years or more.

During this time your cat will rely on you to provide a safe and stable home environment where they are loved and cared for by everyone in the household.

Your cat will be totally dependent on you to provide a balanced and nutritious diet every day.

Your cat will be totally dependent on you to keep them parasite free. This requires you to administer regular flea and worm treatments for the rest of his or her life. This can cost up to \$150 per year.

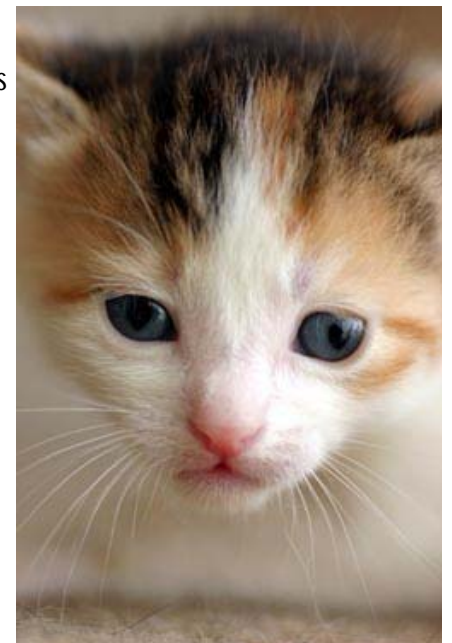

**IMPORTANT NOTE:** After you have chosen your new cat or kitten you will need to allow at least half an hour to finalise the paperwork and receive important information on settling your new cat or kitten into his/her new home

Your cat will be totally dependent on you to provide ongoing veterinary treatment. This involves not only a yearly check up and booster / vaccination (around \$70) but may also involve emergency veterinary care if they become ill or have an accident, such as being hit by a car (in some circumstances you can expect to pay in excess of \$2,000 for surgical procedures and ongoing post-traumatic care).

Your cat will be totally dependent on you to make suitable arrangements for them to be cared for if you go away on holiday (boarding facilities can cost over \$20 per day).

On a day-to-day basis your cat will be totally dependent on you for mental stimulation (games and toys), physical attention (pats, cuddles and brushes) and most importantly, emotional reassurance (love and company).
